Applications

The DOPPSTADT DZ 750 shreds waste wood, roots, green waste, bulky logs and much more. The installation of two coordinated components on one chassis offers an optimum solution on site for challenging shredding tasks.

Advantages

- Shredding and grinding in one machine
- Production of finished goods in one machine
- Easy one-man operation
- Contaminant-resistant high-speed shredding
- Metal separation by two overband magnets (additional magnet optionally available)
