

Chipper DH 811 L

Dimensions

Chassis	Truck mounted
Total weight (kg)	15700
Length (mm)	7221
Height (mm)	ca. 6200
Transport width (mm)	2500
Transport height (mm)	2683 plus LKW-Fahrgestell
Transport length (mm)	6291

Drive

Engine type	Dieselmotor
Make	MTU 6R1300
Exhaust level	EUROMOT IV
Motor power (kW / PS)	390 / 530
Fuel tank (l)	750
Torque (Nm)	2200 Nm at 1.300 rpm

Lower screening deck

Knives	5
Logdiameter Hardwood (mm)	480
Logdiameter Softwood (mm)	600
Rotor Diameter (mm)	1000
Rotor Width (mm)	1000

Applications

The precision chippers of the DH series process waste wood, wood slabs, log and root timber to different sizes of wood chips. The machines can handle trunk diameters up to 900 mm – be it scrap wood or trees in their entirety.

Advantages

- Closed, robust chipping drum
- Mountable on any truck chassis with up to 32 t overall weight
- Chopping knives with overload protection
- Changeable screens for various sizes of wood chips
- Easy set-up and maintenance
