

MULCHERS  
FOR SPECIAL BUILT CARRIERS

140U ST

from 100 to 220 HP

Ø 25 cm max

UNIVERSAL MULCHER FOR HYDRAULIC CARRIERS.

The 140U is the smallest model in FAE's lineup of forestry mulchers for dedicated carriers. Purpose built for highly professional applications. The dimensions of this model were created to be used for oil exploration by carving out corridors in wooded areas for seismic detections. The heavy duty frame allows for use with tracked vehicles and helps avoid potential damage to the frame or components like the rotor bearings and hubs.

STANDARD EQUIPMENT AND OPTIONS

Considering the various available options and high level of customization, the final configuration will be specified upon request

- Customized attachment plate**
- Mechanical or hydraulic push frame** (optional)
- Hydraulically controlled hood** to adjust final product size
- Ripper teeth on hydraulic door** (optional)
- Possibility to have the rotor equipped with teeth type C/3/HD, STCL/3 or the type-I tooth**
- Adjustable skids**
